

Disability and Access Services

OCU is committed to providing the necessary and helpful support to students with disabilities. Learn more about policies, process, and documentation by visiting okcu.edu/das. Reasonable accommodations will be made within our guidelines, and we strongly encourage students seeking academic accommodations to **initiate their request as early as possible** by emailing our staff at das@okcu.edu or completing an application and providing documentation via the application link on the webpage.

ACADEMIC ACCOMMODATIONS

If you are a student with a disability and need academic accommodations, you must complete an application and provide documentation of your disability. Acceptable documentation may include a current 504 plan or IEP Plan, provided the information is dated within the last 2-3 years.

HOUSING ACCOMMODATIONS

For students requesting housing accommodations (including emotional support animals), we encourage submitting the request through completion of an application and providing documentation **at least 60 days before the intended move-in-date**. Requests made fewer than 60 days prior may result in the university being unable to meet the accommodation needs of the student during the first term of occupancy. Submitting requests early ensures the best opportunity for us to provide the necessary housing accommodations.

REVIEW CURRENT POLICIES

Make sure you are up to date on the university's policies in the following areas:

- ★ Emotional Support Animal Policy
- ★ Disability and Access Policy for Students
- ★ Housing Accommodation Policy
